Subject: Re: DTSC Approval of Revised 8 North Addendum

Stephie and John,
The Department of Toxic Substances Control (DTSC) reviewed the attached Revised Addendum No. 3 to the Master Work Plan/Field Sampling and Analysis Plan, Co-located Chemical Sampling at Area IV, EPA Subarea 8N Soil Sampling (Revised 8 North Addendum, CDM Federal Programs Corporation, June 2011) for the Santa Susana Field Laboratory (SSFL). The Revised 8 North Addendum includes revisions that address soil vapor probe installation and additional associated soil sampling.

The draft Revised 8 North Addendum was submitted to DTSC for review on April 26, 2011. DTSC provided comments and revisions were subsequently incorporated into the Revised 8 North Addendum to address DTSC's comments. The Final Revised 8 North Addendum was submitted to DTSC on June 16, 2011. DTSC concurs with the revisions and approves the final Revised 8 North Addendum for implementation.

If you have any questions regarding this approval, please don't hesitate to contact me at (714) 484-5434 or Mark Malinowski at (916) 255-3717.

Thank you,
Laura Rainey
