Subject: Fwd: Addendum #6 to Master Field Sampling Plan

Stephie,

The Department of Toxic Substances Control (DTSC) reviewed Addendum No. 6 to the Master Work Plan/Field Sampling and Analysis Plan, Co-Located Chemical Soil Sampling at Area IV, Santa Susana Field Laboratory (SSFL), EPA Subareas 3, 5D South, 7, and 8 South, Soil Sampling (Addendum No. 6, CDM Federal Programs Corporation, September 2011). Addendum No. 6 supports field implementation of the soil sampling program described in the DTSC-approved Master Work Plan/Field Sampling and Analysis Plan (FSAP), Co-Located Chemical Sampling at Area IV, SSFL (CDM, 2011).

The draft Addendum No. 6 was submitted to DTSC for review on August 31, 2011. Addendum No. 6 was revised to incorporate DTSC's comments, and was resubmitted on September 13, 2011 for DTSC concurrence and approval. DTSC concurs with the revisions and approves the final Addendum No. 6 for implementation. Please note, EPA and DTSC are copied on this email for posting of this DTSC-approved Addendum No. 6 to their respective web sites.

Due to the expedited schedule for preparation, review and implementation of the Addendum No. 6, the document may contain minor omissions or errors. If additional relevant information becomes available that warrants changes, and/or changes to the field implementation, or quality assurance efforts are made in the field, those changes shall be coordinated with DTSC, documented, and provided in the associated data report.

If you have any questions regarding this approval, please don't hesitate to contact me at (714) 484-5434 or Mr. Mark Malinowski at (916) 255-3717.

Thank you,
Laura Rainey
