Subject: Santa Susanna Field Laboratory Meeting with DOE

To Whom This May Concern: This is a copy to Mr. Johnson at the DOE/ Rocketdyne/
Boeing facility.

Mr. Johnson, I just found the Notification that you referred to in the Los Angeles Times,
March 29, 2007, page 3 of the Classified Section. While this is probably a legal
notification (I am not a lawyer), it certainly is not an adequate one. I do not need a house,
a car, or a job at this time. So the first thing that I do is separate the Classified Section,
and recycle it. This is not meant, where it is placed, to reach the Readers.
Sincerely, Christine Rowe
