

Soil Treatability Study

Energy Technology Engineering Center • U.S. Department of Energy

Next Steps of the Soil Treatability Study

Stephie Jennings, DOE

U.S. DEPARTMENT OF
ENERGY

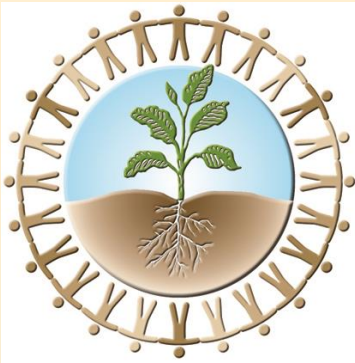

Soil Treatability Study

Energy Technology Engineering Center • U.S. Department of Energy

A look ahead

- Finalize Mercury Study Plan
- Continue Natural Attenuation Study – Establish technical basis for remedy demonstration
- Continue Bioremediation, Phytoremediation and Particle Size Separation Studies
- Look for opportunities for STIG engagement
 - Soil Gas sampling
 - Vegetation sampling
- Next STIG meeting tentatively planned for Summer

Soil Treatability Study

Energy Technology Engineering Center • U.S. Department of Energy

*Thanks so much for attending
tonight*
