

Soil Treatability Study

Energy Technology Engineering Center • U.S. Department of Energy

**Soil Treatability Investigation Group
April 5, 2012**

Logistics

The Soil Treatability Investigation Group will meet on Thursday, April 5, 2012 from 6:00 – 9:00 p.m. in the conference room at Corporate Point at West Hills. The conference room is located inside the café in the building labeled 8411 Fallbrook located at the center of the campus.

Those who wish to participate via Internet based conference call should connect with the meeting by calling in to 1-866-740-1260 and then using 5236668# when prompted for an access code. Those individuals will be able to see what local participants at the meeting can see by logging into <http://www.readytalk.com> (using participant access code of 5236668).

Objectives

The April 5th meeting is designed to support discussion about the following topics:

- The study boundaries and objectives that are being used to develop treatment strategies for advancement to laboratory and/or field testing
- Community reactions to possible vegetation types for use in phytoremediation and/or phytodegradation
- Next steps.

Agenda

The agenda for the April 5th meeting will be as follows:

Welcome and Introductions, Meeting Objectives, and Ground Rules	6:00 – 6:30 pm
<i>All/Wendy Green Lowe/Stephanie Jennings</i>	
Study Boundaries and Objectives for Developing Treatment Strategies for Bench Testing and Pilot Testing	6:30 – 8:00 pm
<i>Sandia National Laboratories present, all discuss</i>	
Discussion of Possible Vegetation Types for Use in Phytoremediation and/or Phytodegradation	8:00 – 8:30 pm
<i>All</i>	
Review and Approval of Group Memories from Prior Meetings	8:30 – 8:45 pm
<i>All/Wendy Green Lowe</i>	
Next Steps and Meeting Evaluation	8:45 – 9:00 pm
<i>All/Wendy Green Lowe</i>
